Easy way to go Green

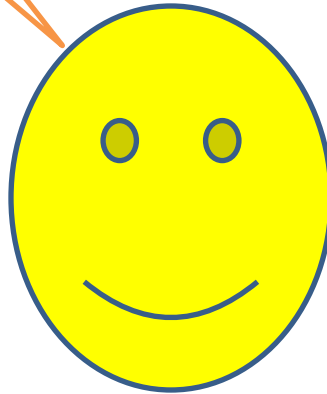

!!!, high electricity bills
High gas bills!
No high salaries???

How can I save my
hard earned money??

Idea!! Go solar to save
on bills.

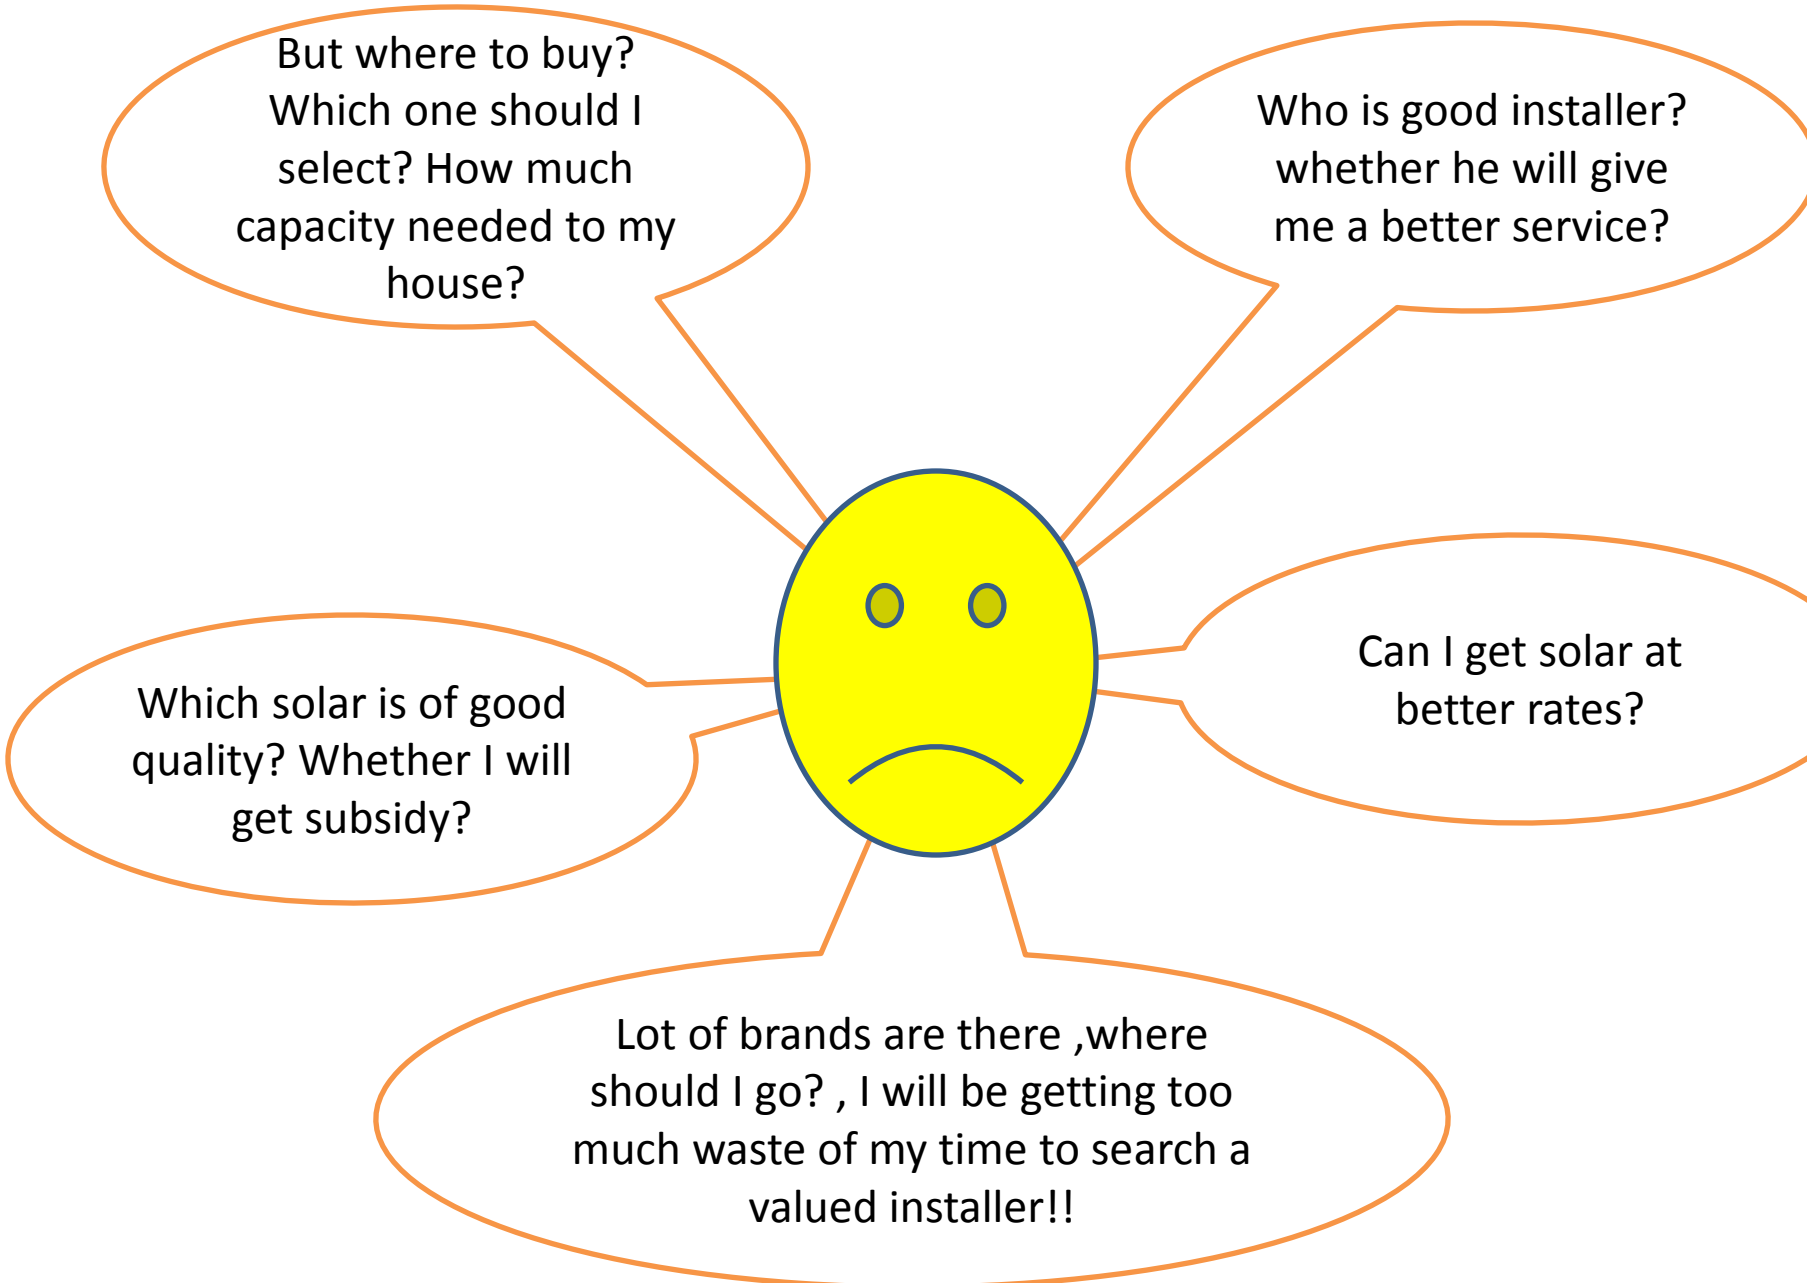

But How ? What
should I use from
solar ?

OH ,Yeh lets go for
solar water heater
,it will save much
more bills on my hot
water needs.

But where to buy?
Which one should I
select? How much
capacity needed to my
house?

Who is good installer?
whether he will give
me a better service?

Which solar is of good
quality? Whether I will
get subsidy?

Can I get solar at
better rates?

Lot of brands are there ,where
should I go? , I will be getting too
much waste of my time to search a
valued installer!!

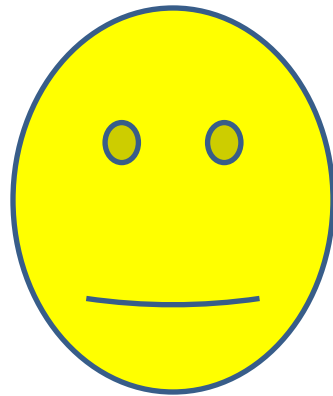

Questions , questions,
questions ?

Questions , questions,
questions ?
